

# PUSH-OFF BUCKET

HB100-EXTENDED

HB100-RETRACTED

## PUSH-OFF BUCKET IN ACTION

### Features:

- Size 84"
- Extremely fast dump cycle
- No more "shaking" the bucket to remove sticky material
- Able to get material in the center of loaded trailers
- Able to dump 2-3' higher than a conventional bucket
- Made from high strength steel
- Powder coated
- Greased pivots
- Replaceable wear parts

### Applications:

- Move high volumes of material in much reduced time
- Fill in trenches without raising the bucket
- Load trailer boxes without risk of damaging side walls
- Able to load in higher side wall trailers
- Controlled dumping speed for feathering material

### Options:

- Replaceable bolt on cutting edge
